

Personals

President David Kennedy suffered from a severe headache whilst walking in the park last Sunday week and was rushed to the Austin Hospital. It appears he had an aneurysm in the head. He returned home after three days in hospital where he is now well cared for by Sara.

He initially suffered from a dull ache rather than a pain in his head after returning home, but could not read or concentrate.

Adam visited him on Saturday and found he was getting slowly better. He is off work for three weeks and Vice President Maurice Sgarbossa will act as President and is in charge of the club until David returns.

Glenyce Sewell is suffering from pleurisy and we wish her a speedy recovery particularly as she and Greg are in the throws of selling their property.
